Guest Speaker

Harold E. Edelman, D.D.S., Consultant, Professional Compliance Group. Dr. Edelman is a graduate of NYU Dental School. He has been an active clinician for 32 years and a consultant in infection control for 12 years. Dr. Edelman has provided infection control services/programs for over 800 dental offices and has been involved in over 60 OSHA inspections of dental offices. He is certified by the Occupational Safety and Health Administration (OSHA) to teach "Voluntary Compliance in the Private Sector" and "Biohazards." Dr. Edelman is an active consultant member of the Organization for Safety and Aseptic Procedure (OSAP), the national dental infection control organization. In addition to his consulting business and clinical practice, Dr. Edelman lectures extensively on the topic of OSHA compliance and infection control at national, regional and local dental meetings, and for dental organizations.
