Conservative Esthetic Dentistry in an Extreme Makeover World
Friday, January 18, 2008
Program, page 2

GUEST SPEAKER

James R. Dunn, D.D.S., Associate Professor, Department of Restorative Dentistry, University of Loma Linda School of Dentistry. Dr. Dunn has been Principle Investigator on numerous clinical and laboratory research projects in dental materials science and has presented the results to both the International Association of Dental Research and the Academy of Dental Materials. He has presented both lectures and workshops for most of the major dental societies and meetings in the United States and overseas in the clinical use of tooth colored restoratives, esthetics, and digital photography. Dr. Dunn has received several major awards for his outstanding teaching skills including the Gordon Christensen award and the Educator of the Year award from the American Academy of Cosmetic Dentistry. He currently practices in Auburn, California.

This program is funded in part from an unrestricted educational grant from 3M ESPE.
