| 4:00 | Adjourn | |

Periodontal Disease & Oral Cancer: Early Detection & Control
Friday, March 14, 2008
Program, page 2

GUEST SPEAKER

Herbert I. Bader, D.D.S., Lecturer in periodontology at Harvard School of Dental Medicine since 1975. Dr. Bader has published numerous articles over the years in both refereed and non-refereed journals. He has been actively involved in traveling and lecturing to thousands of dentists and dental hygienists on soft tissue management, its importance and the role of the dental hygienist. Dr. Bader is a Fellow of the American and International Colleges, and is a Diplomate of the American Academy of Osseointegration. He has been actively involved in the current emphasis of the ADA on adjunctive oral cancer screening. Dr. Bader is also a consultant for Zila/Prodentec Corporation.

This program is funded in part by an unrestricted educational grant from Zila Pharmaceuticals/Prodentec.
